LAZ | NATIVE

PROJECTS

ABODE FINDER

Abode Finder is a dynamic and user-friendly platform designed and implemented using the MERN (MongoDB, Express.js, React.js, Node.js) stack along with Firebase. This application serves as a centralized hub for individuals seeking rental housing and landlords/agencies looking to showcase their rental listings.

THAT'S YOUR PANTRY

MERN stack project keeps track of your pantry items, helping you manage inventory, reduce waste, and plan meals effortlessly.

EXPERIENCE

BIOLOGY TEACHER / CAREER COUNSELOR

Light Academy, Nairobi/KENYA
2012 - 2021

- Conducted informative career development seminars for students and parents, providing insights into diverse career paths.
- Proficiently interpreted psychometric test results, offering insightful analyses of students' performance.
- Assisted students in navigating the complex university application process.
- Orchestrated engaging career fairs to broaden horizons and connect students with future opportunities.
